viveksinghhh29@gmail.com || (+91) 9954556937 || [Linkedin](#) || [Github](#)

SUMMARY

Computer Science undergraduate with practical experience in Machine Learning, Data Science, Python, and SQL. Skilled in EDA, data preprocessing, feature engineering, predictive modeling, and model evaluation using NumPy, Pandas, and Scikit-learn. Experienced in building ML solutions and transforming data into actionable insights using SQL, Power BI and LLM applications using RAG and LangChain, with a focus on solving real-world data-driven problems.

EXPERIENCE

Data Science & AI/ML Trainee – Sofcon India Pvt. Ltd. | New Delhi

June 2025 – August 2025

Python | Machine Learning | SQL | Pandas | Scikit-learn | Power BI | Data Analytics

- Developed end-to-end machine learning pipelines covering data preprocessing, exploratory data analysis, feature engineering, model training, and evaluation using Python, Pandas, NumPy, and Scikit-learn
- Analyzed structured datasets using SQL and Python to identify patterns and trends, and developed Power BI dashboards to communicate actionable insights and support data-driven decision-making.

PROJECTS

E-Commerce Predictive Analytics | Python • SQL • Power BI • Scikit-learn [\[Link\]](#)

- Developed an end-to-end predictive e-commerce analytics platform .
 - Analyzed 100K+ e-commerce transactions across 9 interconnected datasets to deliver actionable business insights and support data-driven decision-making.
 - Performed data preprocessing, feature engineering, and queried relational datasets using complex SQL joins, CTEs, window functions, and aggregations, followed by EDA to uncover customer behavior, product performance, seller contribution, and regional sales trends.
 - Designed interactive Power BI dashboards tracking 15+ business KPIs, delivery performance, customer segmentation, and product sales, reducing manual reporting efforts by approximately 80%.
 - Built a Linear Regression model to forecast monthly revenue trends, predicting growth from approximately 1.33M to 1.59M and supporting data-driven business planning.

FraudShield AI | Python • Scikit-learn • Pandas • XGBoost • GenAI [\[Link\]](#)

- Built a GenAI-powered fraud detection system to identify suspicious credit card transactions and generate explainable risk insights for analysts.
 - Built an end-to-end ML pipeline covering data preprocessing, feature engineering, class-imbalance handling, model training, and evaluation using Python, Pandas, and Scikit-learn
 - Implemented and evaluated Logistic Regression, Random Forest, and Gradient Boosting, achieving 98.7% accuracy, 96.3% precision, 94.8% recall, and 95.5% F1-score with the optimized model.
 - Integrated Generative AI with Ollama Mistral to generate human-readable fraud explanations and transaction risk insights, supported by a React.js frontend and FastAPI backend.

EDUCATION

DAV Institute of Engineering and Technology , Jalandhar

Bachelor of Technology in Computer Science Engineering | 2023 - 2027

Kendriya Vidyalaya , Duliajan

Higher Secondary Education(CBSE) | 2020 - 2022

SKILLS

Programming Languages: Python, C, C++, JavaScript

Machine Learning & Data Science: Scikit-learn, Pandas, NumPy, EDA, Feature Engineering, Model Evaluation, MediaPipe, OpenCV

Data & Analytics: SQL, MySQL, Microsoft Excel, Power BI

Backend & Web (supporting): FastAPI, REST APIs, React.js, Streamlit

Tools: Git, GitHub, Jupyter Notebook, VS Code

Coursework: Data Structures & Algorithms, Operating Systems, Computer Networks, DBMS, Software Development Lifecycle (SDLC)

CERTIFICATIONS

Agentic AI Certified Foundations Associate — Oracle | July 2026 [\[Link\]](#)

GenAI Job Simulation – Boston Consulting Group (BCG) | Forage | Sep 2025 [\[Link\]](#)

Data Visualization: Empowering Business with Effective Insights – Tata | Forage | Sep 2025 [\[Link\]](#)

Data Analysis Using Python – IBM | Aug 2024 [\[Link\]](#)

ACHIEVEMENTS

- Solved 100+ SQL practice problems focused on database querying, optimization, and analytical problem-solving.
- Actively practice Data Structures and Algorithms using LeetCode.
